PEOPLESCOUT TOTAL WORKFORCE SOLUTIONS

Total Workforce Solutions Create Competitive Advantage Through Holistic Talent Acquisition and Workforce Management

PeopleScout's Total Workforce Solutions blend the capabilities of Recruitment Process Outsourcing (RPO) and Managed Service Provider (MSP) programs by integrating the talent acquisition function for permanent and contingent workforces under one delivery team. With Total Workforce Solutions, you can add value and reduce risk with full-cycle, scalable RPO and MSP programs or select specific services to meet your workforce needs.

The traditional approach to talent acquisition remains highly siloed, with permanent hiring, contingent hiring, sourcing, employer branding and analytics often managed separately. Total workforce solutions take a holistic approach to workforce planning and strategy, helping organizations reduce agency spend and improve strategic procurement to meet workforce demands.

Customized Solutions & Services

RPO

PeopleScout's customizable RPO solutions can address your toughest talent challenges with a wide range of flexible programs, from targeted partial-cycle solutions designed to achieve specific objectives to full-cycle management of your entire recruitment function.

RECRUITER ON-DEMAND™

Recruiter On-Demand delivers instant value by deploying expert recruiters that function as an extension of your internal team. This eliminates the need for hiring contract or permanent recruiters.

MSP

Our MSP solutions go beyond the expected cost controls and process administration typical of standard MSP programs to deliver consultative insight and a uniquely transparent approach to partnership that will move your business forward. Each MSP solution is customized to provide you with the best contingent talent, seamless implementation, strong governance and compliance.

VMS

Our MSP team is well-versed in Vendor Management System (VMS) technologies and your program needs.
