

SOURCE SMARTER AFFINIX[™] TALENT MATCHING

The best candidates may never apply to your jobs. So, how do you find them? Affinix AI-powered matching instantly shows you the most qualified candidates for any role.

ONE SEARCH, MILLIONS OF PEOPLE

Stop trying to get the ideal applicants to come to you! Instead, let AI connect you directly with them. Instantly match your requisitions to millions of people on LinkedIn, Google, Facebook, Twitter, GitHub and more. Build relationships early and start filling roles in half the time.

AI-POWERED TALENT MATCHING

With precision and laser-focus, Affinix ranks the best candidates for you based on the requirements of the role. Narrow results by job titles, education, experience, skills and location.

SOURCE CANDIDATES IN HALF THE TIME

Instantly scan millions of candidates and rank them by best match. Intelligent algorithms show you which candidates are more likely to leave their job today, so you focus your time on the hottest prospects.

SMARTER WITH USE

As recruiters select and reject candidates and adjust search filters, Affinix's learning engine synthesizes their behavior so future search results are improved.

HUMAN CURATED MACHINE LEARNING

We keep our AI under control. All machine learning recommendations are based on real recruiter actions and are curated by HR experts before our intelligent matching engine is updated.

TALENT REDISCOVERY

Help your clients leverage all their existing data. Import previous CRM/ATS applicants, including silver-medalists, into Affinix. Then, search internal and external talent pools from a single interface.
